PROFESSIONAL SUMMARY

Certified Microsoft Cloud professional with hands-on experience in Azure administration, focused on building reliable systems that support organizational growth and ensure smooth operations. Proficient in Linux operating systems, Terraform, and Microsoft Azure.

WORK EXPERIENCE

Cloud Assistant, Nevon Solutions

2025 – 2025

- Assisted in managing Azure resources and cloud infrastructure
- Deployed and managed virtual machines and Virtual Machine Scale Sets
- Configured VNet peering for secure inter-network communication
- Implemented Azure Load Balancer for traffic distribution and availability
- Monitored cloud resources using Azure Monitor and Log Analytics
- Assisted in configuring Network Security Groups (NSGs) to control inbound and outbound traffic
- Supported RBAC and Azure Entra ID-based access management for cloud resources
- Helped set up storage accounts, including backup and replication configurations
- Assisted in implementing site-to-site VPN for secure hybrid connectivity
- Applied resource tagging and basic Azure Policy for governance and cost tracking

O2C Financial Lead Associate, WNS Global Services (WNS)

2024 – 2025

- Worked with international clients and cross-functional teams
- Contributed to process improvements and automation initiatives

CERTIFICATIONS

Microsoft Azure Fundamentals (AZ-900)

Microsoft Azure Administrator (AZ-104)

SKILLS

Hard Skills — Azure Portal | Azure CLI | Terraform | Linux | Visual Basic | Python | PowerShell
| Microsoft 365 | Git | Prompt Engineering

Soft Skills — Communication | Problem Solving | Team Management | Adaptability | Work Ethic | Time Management | Leadership

ACADEMIC HISTORY

Ramniranjan Jhunhunwala College, *Bachelor of Management Studies*

2020 – 2025

GPA: 8.8

- Student Wing Associate Member
- Rotaract Club Member
- Sahi Application Team Lead

Higher Secondary Education (HSC)

Aggregate Score: 78%

AWARDS & ACCOMPLISHMENTS

Received an award from the CFO of a partner company for an automation breakthrough

Received an honored award from **James Spence (CFO)** for supporting the Accounts Receivable team in developing an automated system to track and follow up on outstanding payments.

Kaizen Award

received for task automation initiatives taken to help various team.

PROJECTS (AZURE - AZ-104 ALIGNED)

End-to-end VM deployment with NSGs, Load Balancer, and Monitoring

Implemented a complete Azure VM deployment with NSGs, Load Balancer, and monitoring for security and high availability.

Secure VNet architecture with peering and private endpoints

Implemented a secure Azure VNet architecture with peering and private endpoints for private resource access.

Storage accounts with backup, replication, and access control

Implemented Azure Storage Accounts with backup, replication, and secure access control.

RBAC and Entra ID identity management setup

Implemented role-based access control (RBAC) and Azure Entra ID identity management to enforce least-privilege access across cloud resources.

Monitoring and alerting using Azure Monitor and Log Analytics

Implemented monitoring and alerting solutions using Azure Monitor and Log Analytics to track performance, detect issues, and ensure system reliability.

Site-to-site VPN configuration

Configured a site-to-site VPN to securely connect on-premises infrastructure with Azure virtual networks.

Network routing using route tables

Configured network routing using Azure route tables to control traffic flow and enforce network segmentation.

Azure Functions application with HTTP trigger for request-based data processing

Developed an Azure Functions application with an HTTP trigger to process and respond to request-based data efficiently.
